

GMP Genius®

GMP Genius©

What is it?

A new way to deliver your annual GMP training – guaranteed to engage, challenge and educate your workforce.

GMP Genius is customised to reflect your needs. The specific format is up to individual clients and their requirements. Up to 16 people can play the game with one facilitator. There are two game formats -

Customised - The eight main topics are - Regulatory; Production or Sterilisation; Packaging; Quality Management Systems; QC; Documentation; Storage and Distribution; Facilities and Engineering. There will also be Environmental Control, EHS, Training and Development and Community questions. A small number of the questions will require you to provide the answers. This is to ensure they reflect your practices.

Fully customised - We start with a blank canvas and you identify the eight main areas eg deviations, trackwise or any other topics of concern. We work together to develop the questions related to these topics.

Comments from previous participants:

"Best course rolled out on site yet".

"....seems like a lot of work went into preparation - much easier to come to training if like this next year".

"As both trainer and trainee I felt it was the most successful and effective GMP training to date".

"Because people enjoyed it they are more likely to remember the basic GMP principles in their day to day roles, which was the biggest benefit of the training".

"People were looking forward to their training sessions, based on what they heard from other people who had already completed it".
